SUMMARY

Motivated CSD student (GPA 9.18) with experience in frontend development using React and strong problem-solving skills in C, Python, and Java. Interested in building practical software through hackathons and real-world projects.

HACKATHONS

HackOverFlow

National-Level 24-Hour Hackathon

- Developed the frontend for **SkillSwap**, a peer-to-peer skill exchange web platform.
- Collaborated with a team of 6 to deliver a functional prototype within 24 hours.

Smart India Hackathon

College-Level Round

- Participated in the college-level round of Smart India Hackathon.
- Worked in a team of 4 to ideate and design a prototype for a real-world problem statement.

PROJECTS

SkillSwap – Skill Exchange Platform

React, NodeJS — [View GitHub Link](#)

- Designed and developed the frontend for a skill exchange platform, implementing skill discovery and interaction flows using reusable React components.
- Designed intuitive user flows and reusable UI components to improve usability and scalability of the application.

EDUCATION

B.Tech in CSD - Computer Science and Design

2024 – Present

Sagi Rama Krishnam Raju Engineering College, Bhimavaram, AP

GPA: 9.18

Intermediate (MPC)

2022 – 2024

Sri Chaitanya Junior College, Andhra Pradesh

Percentage: 92%

SKILLS

Programming Languages C, Python, Java

Developer Tools VS Code, GitHub, Vercel

ACHIEVEMENTS

- AlgoUniversity Tech Fellowship 2025 (Top 4.59%) Shortlisted among 2.5L+ applicants; solved 3/6 complex algorithmic problems in a national-level assessment.
- Global Rank 1225 / 18,000+ in CodeChef Starters 216 (CodeChef Rating: 1444)
